

Fy nhaith ddysgu yn Celf

My learning journey in Art 9

Uned ymholi / Enquirey unit:

Create and make a 3D chibi and photograph it to make a creative photo story about a day at school

Gwybodaeth a dysgu blaenorol/Prior knowledge and learning:

To prepare for this journey, be aware of different media, pencil sketching, water colour, acrylic paint and methods of graduating colour. The work of other artists and how to experiment and develop your own ideas based on their work. Take a project from inspiration to sketch/develop ideas, generate a 3D piece of art and use it creatively in photography.

Yn ystod eich taith mi fyddwch yn …

During your journey you will …

- Research different chibi's.
- Research existing characters and how they were developed.
- Create a range of different chibi ideas.
- Develop a design in more detail trailing different features.
- Create a 3D form of the design using newspaper and brown tape sculpting with your fingers.
- Create a smooth surface using Modroc to allow the chibi to be painted.
- Add colour to the Chibi but treating it as a 3D canvas rather than just painting it as an object.
- Plan a series of creative images using the Chibi and the I-pads.
- Take the Chibi images and print them out.
- Create a backdrop using water colour and a logo incorporating the name of the chibi.
- Write a story using the images and the backdrop covering the Chibi's day at school.

Yr ydym ar y daith hon oherwydd …

We are on this journey because …

- Understand how different artists produce different work in different media.
- Look at different examples of Public art and installations.

- Develop further the skills established in year 7 & 8 with the media:-

- Pencil
- Coloured Pencil
- Water Colour
- Newspaper modelling
- Modroc
- Acrylic paint
- Planning Photography
- Photography
- How to develop and experiment with ideas in the sketch book
- Evaluate your work and receive feedback from others.

No.	Title	Started	Completed
1	Internet research into existing characters and A4 colour print out.		
2	Initial ideas of different characters.		
3	Choose and develop a character.		
4	3D Chibi created and covered in Modroc.		
5	Chibi painted as a 3D Painting.		
6	Range of creative photographs taken around school with the Chibi.		
7	Photo story on A3 paper with water colour background.
